

KSHITINJAY KUMAR

React.js Developer - Frontend Engineer - Node.js

+91-8687316641 — kshitinjay20@gmail.com — linkedin.com/in/kshitinjaykumar — github.com/Kshitinjay

Professional Summary

Frontend Developer with 5 years of experience building and maintaining web applications using React.js, JavaScript, TypeScript, Redux Toolkit, NextJs, and Tailwind CSS. Worked on developing new features, integrating REST APIs, improving application performance, and fixing production issues. Comfortable working in Agile teams and using Git for version control. Focused on writing clean, reusable, and maintainable code.

Technical Skills

- Languages: JavaScript, TypeScript, HTML, CSS, SCSS
- Frameworks & Libraries: React, Next.js, Redux Toolkit, Context API, Styled Components, Tailwind CSS, Material UI, Bootstrap, Lodash, Chart.js, FusionCharts
- Testing: Jest, React Testing Library (RTL), Unit Testing, Integration Testing
- Tools & Practices: Git, REST APIs, Responsive Web Design, Performance Optimization, Core Web Vitals, Code Reviews, Agile (Scrum)
- Backend (Working Knowledge): Node.js, Express.js, MongoDB, REST API Design
- AI Tools: Claude, Cursor, ChatGPT

Work Experience

BlackNGreen

Senior Software Engineer

Jun 2024 – Present

Gurgaon, Haryana

- Working on TryEva and Agent Foundry, AI agent builder platforms built with React 19 for multi-tenant environments.
- Built frontend features for agent creation and execution workflows, improving application performance and reducing page load times by around 30%.
- Integrated REST APIs and real-time WebRTC voice communication features to support core business workflows.
- Implemented real-time build progress using Server-Sent Events (SSE), including retry handling, conflict resolution, and progress tracking.
- Developed conversation flow visualization using @xyflow/react and dagre with support for 20+ nodes and live updates during WebRTC voice calls.
- Built real-time chat and voice testing features using Socket.IO and WebRTC, enabling users to visualize the agent flow and monitor the current execution stage during interactions.
- Collaborated with backend and product teams to deliver new features and improve the overall user experience.

SirionLabs

Software Engineer

May 2021 – Jun 2024

Gurgaon, Haryana

- Developed key features for the AkiroLabs SaaS platform using React, contributing to increased customer adoption.
- Integrated ChatGPT-powered capabilities that improved user engagement and increased average session duration by 25%.
- Migrated legacy AngularJS modules to React, reducing technical debt and improving maintainability.
- Built interactive analytics dashboards and PDF export functionality, reducing report generation time by 40%.
- Redesigned popup workflows and automated repetitive user actions, reducing manual effort.
- Presented bi-weekly demos to stakeholders and worked closely with product and QA teams to incorporate feedback.
- Worked on proof-of-concepts and resolved production issues to improve application stability and reliability.

Newton School

Software Engineering Intern

Oct 2020 – May 2021

Bangalore, Karnataka

- Completed a software engineering bootcamp and built web applications using React, JavaScript, HTML, and CSS.
- Worked on frontend projects to strengthen concepts related to component-based architecture, state management, and responsive design.

Projects

- **Naukri Board** – React.js, Material UI, Node.js, Express.js, MongoDB (Link)
Built a full-stack job application tracker with CRUD operations across 5+ interview stages, search, filtering, and responsive UI.
- **Blood Finder Web App** – React.js, REST APIs, Bootstrap (Link)
Developed a responsive donor search platform with real-time search by blood group and location and a mobile-first user experience.
- **Meeting Room Booking App** – React.js, Context API (Link)
Created a scheduling application with room availability management, conflict detection, and dynamic state handling.

Education

Bachelor of Technology in Information Technology

University Institute of Engineering and Technology, Kanpur, Uttar Pradesh

Sep 2016 – Sep 2020
